

English to Esperanto & Esperanto to English 2-Way Dictionary

With over 12,000 entries of most used words
Giving 6,000 most needed word meanings
Which in total give 95-99.9% understanding
But around 600 words give 90% understanding
of most human communication
based on University Language Research.

What words are best taught / learned first In any language to be learned

The **MOST FREQUENTLY** used roots are capitalized, and underlined. **VERY FREQUENTLY USED** roots are capitalized but not underlined. **Frequently used** roots are just bolded. One could call this a basic vocabulary. Learn these words first but do not limit yourself to this. The marking of basic words is a learning tool that will save the learner much time and provide 90-99 percent understanding of most conversations. [Brackets indicate a roughly similar English word as an aid to memorization. If there is no definition the meaning is the same as the word in bracket.] A few additional important words are underlined. Each person must then mark and learn the additional roots needed by them for their situations **About one half of the words are similar to English words..**

The alphabet consists of the following letters: Aa, Bb, Cc, C^c^, Dd, Ee, Ff, Gg, G^g^, Hh, H^h^, Ii, J^, j^, Kk, Ll, Mm, Nn, Oo, Pp, Rr, Ss, S^ s^ Tt, Uu, U^u^, Vv, Zz. There is no Q W X or Y. **There are six letters that wear a hat (alternatively they may have an "h" placed after them to indicate precisely the sound of that letter)** This is like the hard g pronounced as in get verses the soft g written with a ^ over it or an h after it pronounced as in gem. The consonants are pronounced by adding an "o" to the letter. B is pronounced Bo. The vowels are pronounced by saying their sound. Since each letter has only one sound the simplest way to note the difference internationally is to mark that letter. In this way the pronunciation is precise and always matches the spelling. This also allows many more international words to be used. In general the letters are pronounced as in English except for these BELOW. Each letter has only one sound.
