

Notable Accomplishments Center Line area Folks

This book will be going to The Library of Congress and other historical libraries soon. Let us know of others who should be included. We don't know unless you inform us.

My email is wecare@dogoodforall.today

I am are writing this history about my classmates to see what they accomplished besides just living a life, raising children and acquiring material possessions.

What happened with the kids we went to school with?

E-mail us your Accomplishments. Good parenting of children is a major accomplishment. Those who served in the military or were fireman or police please mention that. If you worked and supported yourself that is an accomplishment. If you went to school after your graduated that is an accomplishment and even more if you used that education for the betterment of mankind. What else did you do that might benefit your grandchildren? Were you an activist for demanding that humans must be humane and cause no harm by their actions or inaction? Did you press for personal responsibility? Did you stay informed on issues and demand corporations stop polluting our environment, and ripping people off with excessive medical and drug charges? Did you fight corporate welfare? Did you call your congressman and demand they work for us not for corporations and to stop wasting our tax money? Were you an activist for more responsible government and better education and free education for your grandchildren? Or did you waste your life in self indulgence and sitting on your ass being entertained by the idiot box as many people did. Send me an email and tell me what good things you have done so I can put this in your history for your great great grand children.

Based on my many years as a historian most families never even take a few minutes to jot down their history and then they put it in a shoe box which eventually gets tossed in the trash because the survivors are too busy cleaning up to bother to read things after their older relative dies. **Most great great grandparents are totally forgotten because no one bothered to take a few minutes to jot down their history. Tell me or be forgotten. This is going to The library of congress and local history archives.**

Many class members want to know who has died and who is still alive. By 2062 members of classes 1959-1965 will all be dead. Already all class members of classes 1920-1939 are all presumed to be gone because we have no one in our area over age 100. You won't be there to tell your great grandchildren about your life but this book will be. Send professor and historian Wesley E Arnold your biography so he can put it in our Warren-Center Line Who's Who. So your great grand children can know about your life and accomplishments. We have 6000 people in our local cemetery who have failed to do this and are now mostly forgotten and no one alive knows much about them.

Don't let this happen to you.

Deceased are shown in Red. Veterans who Served our country are in Blue.

Alive 2021. means they were alive in 2021 or what ever year they were last heard from.

PRIVACY: fone (modern spelling) numbers are never shown but public information may be such as: newspaper articles, funeral obituaries, class lists, info from alumni sites, Google, Facebook, city, county and federal records. I show basic historical items such as classmates, status (alive or deceased) occupation, who they married, accomplishments and last general location. All classmates may send me an autobiography to go here and or also go in the more detailed Center Line-Warren Who's Who. (A series of 20 books of Notable people who have accomplished something for benefit of humanity. And you may include your personal information of your own choosing yourself. **If you want a spouse name removed tell me.**

No disparaging remarks or put downs will be accepted. Just our Accomplishments, what we did for our community, and our basic History, fluff omitted. Example the first person listed below, your historian, earned several college degrees, belonged to many organizations, traveled around the world, was listed in Who's Who and was given many awards. All of this is omitted as it did no good to the community. Also what he bought, collected and acquired are irrelevant. Just paying for a membership in an organization is not an accomplishment so is omitted. That he put his life online to defend the community against a local terrorist cell when he was 73 years old is too difficult to explain so we will call it service as a witness.

We will pick on your historian first and in much greater detail so classmates can decide what they want to include for themselves or not.

Arnold, Wesley E. Alive 2021. Shy kid, average student. He served our country in the **U S Army, given medals.** No big hero just a humble soldier who volunteered to serve his country and he got shot at. He was a **Red Cross Volunteer** and taught First Aid, was a scouter and **Scoutmaster, saved lives, had a good influence on youth.** Was a **social worker many years and helped many families.** Then went back to graduate college and again worked to pay his own way for years of difficult study (always had memory issues) to earn a Masters degree in Teaching. Resulting in after years of low pay teaching adult education (because he had earned a masters degree and they were only hiring those with bachelor degrees) finally got hired as a college professor.

He was one of the **first to set up Solar Panels (reducing environment harmful emissions, helping our planet,** and got free power for much of his home with them. He now tells others how to do that themselves at very low cost. Best thing is this also makes you independent of the electric grid meaning you no longer worry about power outages and we can always charge up fones. You can also run your TV and laptop computers off of this set up with free dependable electricity. Cost for parts can be under \$100. See his free book **Free Solar Power, Do It Yourself**

He shared lessons to world on Wiki University. **Was a good teacher and college professor (over 20 years as college teacher of Technology) and helped his students giving them useful and practical information.** (combined over 50 years teaching useful topics.)

Wrote and published over 260 useful books, 136 on Local history recording our local history and genealogy for future generations and helped **preserve our American Freedom and Way of Life.**

Did doctoral work on finding the easiest language for humans to communicate between languages around the world **to save lives and help prevent misery** caused by language misunderstanding around the world. (Thousands of lives are lost yearly) He published free information on international vocabulary to help with understanding between languages and save lives. See

easiestlanguage.info Did volunteer work in **humanitarian causes**. Gave away for free his local history books he wrote including DVDs to all who wanted one and became known as the humble historian because he spent thousands of hours recording our local history and put it up on a free website. <http://dogoodforall.today> Visit that website.

Or visit amazon.com and select books by Wesley E. Arnold to see just some of the books, many of which may be useful to you. He wanted to put them there for free but Amazon being a business insists there be minimum price of 99 cents. But Prime and Kindle Select get them free. Amazon sent a check for 7 cents but the bank wanted a 10 cent deposit fee. ☺

One book is especially worthy of you getting
“Be a Success with people skills from experts and real life experience
With Proven Success Practices.” This book can save people’s lives
particularly teens. Also fits on a cell fone (it’s **FREE** on <http://dogoodforall.today>)

Professor Wes helped hundreds of students get college scholarships and **you can also see dogoodforall.today** Did volunteer work in aiding the homeless. Was a witness for homeland security against a local terrorist cell. Encouraged people to help each other and help preserve our history, freedom and American Way of Life. One thing we can do is do not allow them to limit our freedom of speech with so called anti hate speech laws which are a ruse to stop criticism of that big Anti American Terrorist Ideology 2 Billion strong group who have super effective propaganda and is practicing stealth jihad worldwide. (If you want to see where America is going Look at Iran & Pakistan.)

He promoted rain barrels for free water and emergency water. He likes Independence. Studied electronics and radio enough to pass the next to highest Radio license test and holds rank of General. If the land lines go out and the cell towers go out he can potentially communicate with 800,000 other stations with his back up solar powered radio station. He is back up communications for the Warren Fire Department and Police department and is an official Tornado/storm wind spotter and maintains an independent of the power grid emergency communications radio station.

Professor Wes also exhibited his Center Line – Warren historical picture collection (300 out of several thousand historical pictures) at Hometown Heroes Internet Pub in Center Line. He still teaches Technology Classes at college level but is most active in trying to improve things for all through humanitarian education over the Internet.

He states that there are a few important things to learn from history which are (among others)

TOO MANY PEOPLE HAVE BEEN KILLED NEEDLESSLY;

HUMANS BEING HUMANE and SCIENCE; with WISE PLANNING & MANAGEMENT PROVIDES the most BENEFITS FOR ALL.

THE WISEST ACTION IS TO DO THE MOST GOOD FOR ALL, BUT NOT CAUSE HARM BY ACTIONS OR INACTION.

HUMANS MUST BE HUMANE OR ELSE WILL CAUSE THEIR OWN EXTINCTION. (See Nuclear winter as presented by Carl Sagan)

We must use wise planning and management to create a better future for our grandchildren.

The picture below is what many of us veterans fought for and many died for and we feel it should be taught to all especially young people and new citizens.

**We Support The American Way of Life which promotes:
Life, Liberty, Justice and the pursuit of Happiness for all
through individual Responsibility and Integrity.**

**With rule of law under our U.S. Constitution.
With each person supporting themselves, family and
their community to best of their ability.**

**Promotes: use of scientific knowledge, research and
discussion for solving problems rather than violence.**

**Promotes: Love, Kindness, consideration for all with
the expectation and code of conduct that
No one should bring harm to another by their actions
or inaction**

**and Actions should be based on Factual Truth,
not hearsay or uneducated opinion from obsolete past?**

Does it pass the test of Truth based on all of the facts?

Is it how you would want to be treated?

Humans should be Humane.

Professor Arnold also assembled an Electric vehicle powered by solar power or human power and put out information about how others can do this and save big money on car insurance. Most trips most people make weekly are very short. If a family has two cars car insurance can be cut down or dropped on one but reinstated if needed. This can save people \$1000 a year. And his E vehicle gets free fuel from its solar collector on the roof which can be removed and placed in a south facing house window.

Professor Arnold also did doctoral work to discover the easiest language and published a book on it (now free at easiestlanguage.info) where he displays over 100 of the almost 1000 letters he has received from over 80 countries in this easiest language (Language International) in which you already know 2,000 words. You can learn it in 5 minutes a day. This enables learners to correspond with pen pals or e-mail pals from all over the world. Oh the easiest language is not English a language that 95% of the world does not understand despite what the propoganda tells you. Except for tourist traps and a few businesses 95% of the people in the world do not understand English and will not bother to learn it because of its thousands of grammar exceptions. But if children of the world learned the easiest

language known as International Vocabulary then within a few years thousands of lives could be saved which are now lost due to language non understanding. Example the Ecuadorian pilot who did not understand the towers directions which caused him to collide with another jumbo jet causing over 500 deaths. Or the mother who was traveling when a man snatched her baby and she started screaming for help but the policeman who arrived did not speak English (95% of the policemen in the world do not understand English). Humans need to understand each other in emergencies. So Professor Arnold is promoting it on his web pages and with e-mail pals around the world. Visit easiestlanguage.info

Professor Arnold is also trying to get State and federal authorities to end robo calling, end corporate welfare and get affordable medical care, medicine, affordable housing for all Americans.

He also is still teaching college classes about technology at his advanced age and warns students that bots (automated computer programs) are and will be replacing over half of current human jobs without creating new jobs. So we will need to do something about the coming massive unemployment. This can be done by placing solar energy panels on public property (creating jobs) and then putting the profit from that huge amount of free daily energy into a public fund and give every citizen an equal share. This would create a basic income for all. People could still work for additional income. This would end welfare and poverty forever. We need to do this soon before large numbers lose their jobs.

Here is a story about a Center Line graduate who never set foot in the school

My story **Joseph Boesel**. I graduated from CLHS Jan 13th 1958 and was never in the school building and now the rest of the story. I started school at St Clements and left in the 6th grade and went to Busch High School. I stayed there until the 8th grade and left. I really didn't like school. So I got a job and worked until I was 18. I really wanted to see the world so I enlisted in the US Navy Jan 1955. Had my training at Great Lakes Naval training Center in IL. After 14 weeks of training they told me to Report to the USS INTREPID CVA11 and there I stayed for my enlistment of 4years. Went a million miles on the Intrepid. Three 7 month Deployments to the Med Sea and 4 month deployment to the North Pole and Iceland. I was Third Class Petty Officer on the 5in 3/8 gun turrets and I had a crew of 11 sailors. While on our 1958 cruise to the Med they asked me if I wanted to study for a GED To get my high school Ed. I said to my self I am going to need that after I get discharged from the Navy, and I needed that because when I got out jobs were hard to find and lucky for me I stayed in line at a General Motors plant in Detroit for days to get a job. Two weeks later they called me and said can you start today. I broke my neck to get down there. So I worked for G.M. for 31 years and I have been retired for 31 years. I guess you can't beat that. This Friday on St Josephs Day I will be 85 years old and with my wife Pauline been married 60 years this Sep. We raised 3 daughters and have 6 Grand Kids plus 6 Great Grand Kids. I have been thankful my whole life for what the good lord has given to me and my wife. So now you know the rest of the story. Yes he has a letter from The School that he graduated in 1958. It took a lot of study and one has to pass a big test for a high school certificate back then.

After being sent home to die, Lee was cured from "terminal" cancer, at age 1 1/2, using an herbal formula that was developed by an American Indian, who resided at 8 Mile and Woodward, in 1946. In his 20s, he repeatedly visited the Indian and begged for the complete, five herb formula, which he eventually got and then began healing cancer in others and succeeding! He worked on the mural that stood, on the wall in the hall, beside the principal's office, at Center Line High, in 1960 and it remained there for many, many years before being removed. He has "died" three times and come back! He was diagnosed to die three more and survives still! Also, Lee has survived the many "regular" scrapes with death, the normal teenage near tragedies and more recently a 22 car wreck on I-75. Lee has three degrees and taught and counseled in high school, but mostly middle school, for 22 1/2 years and loved every minute with the kids. With his illness experiences, he has researched disease and now heals, for free, most any illness, but cancer remains his most satisfying one to heal--he has never lost any type cancer "patient" in over 48 years!! Lee has invented a brand new, 100% effective hydrotherapy and a simple, unique sleep system that allows deep sleep in a few minutes and requires only 4-5 hours in bed to totally refresh each night, he's reversed alzheimers, heart disease, blindness, diabetes and many, many other illnesses. For the last 19 years, Lee, a non-gambler, has made a living, and financed his healing and research, by playing casino blackjack and has an e-book in the "works" describing his 90% plus, winning technique. After two failed marriages, Lee has finally found ("Why did you make me wait so long, God"?, he asks.) the "perfect" woman, "meant" for him, who is the love of his life and he plans marriage soon! Picio Paul Carl II CLHS1962 **Alive 2019.** Lived Utica Michigan, Worked GM 36 years

Pilchak William class of CLHS 71 from White Lake MI. I was fortunate to become the President of the Student Body at Central Michigan University and then went on to law school. Spent six years as an Oakland County assistant prosecutor and senior trial attorney under L. Brooks Patterson where I tried dozens of felonies and 12-14 murder trials. Then practiced management-side labor and employment law for 36 years (18 as senior partner of my own firm) representing companies as large as McDonalds and the Rouge Steel Mill to mom and pop operations and representing courts and judges in employment and funding matters. Was consistently listed by “Best Lawyers in America,” SuperLawyers and DBusiness Best Lawyers. Was admitted to the College of Labor & Employment Lawyers in 2018. Spoke twice at American Bar Association (“ABA”) annual meetings regarding the connection between childhood sexual abuse and later adult claims of sexual harassment. Was on the

faculty of two ABA National Institutes, teaching other trial lawyers via mock-trials. Became somewhat of an expert in defusing potential employee-violence situations and briefed Congressional personnel on legal impediments to dealing with that. Often acted in the role of detective/investigator, breaking cases by secretly obtaining opponents' fingerprints, tracking down witnesses in dangerous neighborhoods, etc.

As to extracurriculars: Was Chair and a long-time Board Member of the Auburn Hills Chamber of Commerce and for many years President of the Metro-Detroit Chapter of the CMU Alumni Association. Received the Oakland Bar Association Leon Hubbard Community Service Award in support of diversity for our annual Law Day program for at-risk elementary school students setting forth our respective paths from humble beginnings (mine started in Detroit's Parkside Projects) to the legal profession.

Retired from 60-hour workweeks when time became more valuable than money. Published two legal thriller novels on [Amazon.com](https://www.amazon.com/s?k=William%20Pilchak&i=stripbooks...). The first involves sexual addiction and harassment and is thus pretty racy. The second involves the implications of Satanism becoming a protected religion under discrimination law and traces the Dark Prince's role in the breakdown of morals and society since 1967, "The Summer Of Love." (Herb Hummer, CLHS '71 provided pre-pub feedback on #2) They are available at: <https://www.amazon.com/s?k=William%20Pilchak&i=stripbooks...>

Got teaching degree taught elementary grades. Became Wayne County Probation Officer and State of Michigan Probation Officer retired from this after 29 years. Likes trimming Christmas trees at a tree farm. Does volunteer work that helps keep lead out of our water. Is a recycling technician working with computer parts. Helps others. Has grand children. Married Andrea. Lives Warren Michigan. Just received this update. I, John Clayton Stahl, was born in Detroit, Michigan, and moved to Center Line when I was eleven. I have worked as a laborer, helping to pour concrete driveways for an Italian neighbor of my sister, Susan. My boss is now a multimillionaire. I later worked as a Probation Officer in Detroit and retired in 2001. While working there, a fellow probation officer and his wife decided to start a Christmas tree farm and he needed some part time help to plant, prune, and during a drought water his trees. With three children as well as their beautiful (not exaggerating) wife to support I was glad for a chance to earn some extra income. On both the laborer job and tree farm jobs I was paid a small fraction of what I earned as a Probation Officer, getting a salary enhanced by Union bargaining. From my tree farmer boss, Frank Genovese, I learned to prune Christmas trees and I got a loan from my credit union to invest in a Saje Shearing machine with an 8 ' foot blade. Gradually, I was able to work for enough tree farmers to prune trees for to make almost as much, hourly rate, as the State of Michigan paid me to supervise a caseload of Felony Offenders on Probation. Frank Genovese, God rest his soul, became the owner/manager of Candy Cane Christmas Tree Farms in Oxford and Lapeer, MI and a multimillionaire as well. So contrary to what you might expect from performance in 2 world wars, I, a great grandson of German immigrants, have not become a millionaire (by a long shot), but have worked for two Italian sons of Immigrants who did. At age 76 I now reflect that their willingness to risk investing in themselves and do the work that it takes to get a job done made them rich. I am immensely grateful for the skills and wisdom that I learned from both men enriched my life and I do not begrudge them in the least their enjoyment of the fruit of their labors. I humbly suggest that those young people of today who would seek to discredit this country and debunk our capitalist system would do well to examine the alternative nations and systems with as critical an eye. As Jordan B. Peterson suggests in rule 6 of his bestseller, Twelve Rules for Life: An Antidote to Chaos, Set your own house in perfect order before you criticize the world.

50 now DECEASED IN CLASS OF 62 THAT WE KNOW ABOUT but there are probably more

because no one reports them. By 2060 everyone in this entire document will be dead and unless a history is done they will be forgotten. This is why I offer the opportunity for every class member and their family to place a biography either here and in my 25 book Who's Who of Center Line-Warren History. In this way great grand children can read about you as these books are going to Library of Congress and other historical libraries.

Most great great grandparents are totally forgotten because no one bothered to take a few minutes to jot down their history. Tell me or be forgotten. This is going to The library of congress and local history archives.

About me Mother of 3, grandmother of 7, great-grandmother of 2, Married 45 yrs, an antiquarian for 40 yrs, shepherd for 30 yrs graduate with masters degree from the school of life.

The mother of 3, grandmother of 7, still raising sheep (can't imagine life without them), this looks like a good place for social amusement not to mention seeing photos of family I haven't seen in decades. Connecting with old friends and school mates is always interesting but I have also met many new friends on the internet threw interest groups.

She was also a “Tree Hugger” these are people who have such reverence for life that they even love trees as living beings. She was a kind and loving person. [Carolyn D Kaminski \(Shorek\)](#) 72, November 24, 1946 – September 26, 2019.

John W Kingscott is buried in Warren Union Cemetery. He was an early Warren township official and was listed in the official 1850 US Census as a US soldier. In those days the life of a US soldier was often one of suffering and sacrifice. That is why he should be listed on a historical stone. Otherwise he

will be forgotten. The marker with his name on it was stolen.

Much of the following research was done and Transcribed by Robert and Cheryl Allen. They have done a lot of other historical work and we owe them a dept of gratitude. Thank You

Our warren soldiers who died were listed on a memorial most are buried in Warren Union Cemetery but a few died in France and are buried there or somewhere else and have no marker in the USA. These Warren men gave their lives for our freedom and deserve at least to be mentioned on a nice granite marker in their home town. It is the right thing to do. Our old veterans are dying off at a rapid rate. These men should be honored. The stone with the names of 30 soldiers that was ripped out by vigilantes was the only stone that named all of these men whose records are lost or who have no marker. The only Vietnam soldier listed on the memorial is old and in poor health and has left orders to sprinkle his remains in Warren Union Cemetery. His name was included on this stone to show visitors including young people that Warren men have proudly served the cause of our freedom for over a hundred sixty years. For verification see Record of Macomb County Soldiers and Sailors in Service in the Great War, also see Honor Roll of Macomb County Men Who Lost Their Lives In Service During WWI

Vietnam deaths costing over 60,000 American deaths. 2,650 from Michigan died.

Our historian asks was our involvement in a Asian civil war worth even one American death?

The old historian asks again was our involvement in Iraq and Afghanistan civil wars worth even one American life? And now that it is almost over because of their religious intolerance they still both have ongoing and probably never ending civil wars as we are trying to get out of there. **Having lost over 10,000 American lives.** The War against Islamic Terrorism has now become our longest war which we had better be fighting at home as we have lost over 3,150 American lives here at home in addition to the over 8,000 overseas, with over 50,000 casualties. see <http://www.cnn.com/SPECIALS/war.casualties/>

Cpl Gentian Marku from Warren Michigan Age 22 years Operation Iraqi freedom. **Shot and died 12/25/2004 Christmas Day.** Genitan was a smart young man who spoke more than one language. He worked at the country kitchen restaurant on Hoover by 12 Mile. He became a translator in the U. S. Marine Corps. He had a great future planed. A jihadi ended that.

Abel and Sarah Warren were our first area Pioneers. Abel Warren was a pioneer Christian circuit preacher and war hero who became particularly beloved to the early pioneers and was held in very high esteem so much so that the area near the future village of Warren was called Abe's circuit or Warren's circuit. The area was later named Abo Township and on March 26, 1839 it was renamed Warren Township. He roamed over the Center Line area and helped The Groesbecks and other early settlers.

Well here is the end of this short list of those Center Line area folks with notable accomplishments. It is an impossible task to list everyone who has notable accomplishments first because the historian does not know about them and second they and their families do not know about this historical document going to Library of Congress exists.
