Professor Wesley Edward Arnold MA

Do a Ctrl +f to find any name quickly

This will give you the location of most graves with stones.

See other books in this series. I have researched and written many books on Warren Union, St Clement and Bunert Cemeteries located in Warren Township Macomb County Michigan and in Tuscola County and Covington NY (where some of our settlers came from such as Abel Warren who our township was named after.) My research came to a screeching halt when a social clique within the Warren Historical Society began removing gravestones and my brick markers which marked unmarked graves or graves whose marker was unreadable. I was on the Warren Historical Commission at that time and my efforts even as a Veteran to have grave stones returned were countered by their majority on that commission.

I then put my efforts into recording local history and documenting St Clement our other pioneer cemetery. When I started St Clement only had documented a little over 2,000 burials. After 6 years of research I have over 6,500 burials documented and indexed with locations for most. And unlike the Warren Historical Societies (there were several through the years) which have failed to preserve the records of our cemeteries, I have researched, preserved on 100 year lasting DVDs and archived on websites and archived in books our records and history. And I put all of this information and books out for free for many years.

I fully support our Warren and Center Line Historical societies and their continuing work in acquiring and preserving our local history. Indeed they have done many good historical projects.

FREEDOM OF SPEECH AND MEDIA SAFEGUARD FREEDOM.

Where they censor speech, information and books they will take away freedom

Where they take away freedom

They will take away men!

*HUMANS MUST BE HUMANE
CAUSE NO HARM BY ACTIONS OR INACTION
HURTING OTHERS IS NO LONGER
ACCEPTABLE TODAY
DEMAND RESPONSIBLE
BEHAVIOR FROM EVERYONE
MAKE IT THE HUMAN WAY and LAW
Enforce law to protect all*

Actions should be based on reason not emotion.
Actions by emotion are often regretted and cause
pain and suffering.

Actions should be based on scientifically proven
facts, not rumors or hearsay. Has there been
adequate consideration for all concerned?
Does it pass the test of truth? Is it the actual truth
or uneducated opinion from obsolete past?
Is it fair to all?
Is it how you would want to be treated?
Is it the right, human and humane thing to do?
Does it consider or violate human rights?

Our area had many cemeteries. For thousands of years persons who died were left to be eaten by animals. Europeans also often left the dead to be eaten by animals. After 1818 settlers buried their dead in shallow graves not far from where they died, without a casket or stone marker. After 1850-1855 most of the dead were buried in one of three cemeteries: The Bidell-Green-Weier Cemetery, (commonly referred to as Bunert Cemetery) The Warren Union Cemetery or the St Clement Cemetery. After 1880 many were buried at Mt Olivet On Van Dyke near Six Mile Road. There were almost no grave stone makers locally until after 1855. **Many were buried without a casket or marker.** Both the St Clement and Warren Union cemeteries date from 1850-1855 but both appear to be preceded by the Bidell-Green-Weier Cemetery on which I am doing ongoing research.

In Warren Township the oldest recorded cemetery burials were at the Warren Union Cemetery, followed by the St Clement Cemetery. But between the A Bunert Farmhouse and the C Bunert Farmhouse Just N of Martin Road and West of Bunert Road, was an Indian mound which was 18 inches tall. It was most likely an Indian burial mound but this is uncertain. This mound existed prior to the settlement of their farm in 1849. It had become overgrown with weeds and shrubs so much that it was not particularly recognizable as an Indian mound and was missed on the early surveys. The settlers certainly were not in the habit of building mounds. The family reported that Indians came around often in the early days. They would read the sun like a clock and would disappear when the sun reached a certain angle. Indian artifacts have been found in the area. Local legends also give credence to the Indian mound theory. This area is generally flat and there is no logical geological explanation for a sand mound given the flatness of the surrounding area. Also considering that there was at least evidence of forty human remains removed from this site and that no archeologist was called in to evaluate the site so that there may have been other evidence that was certainly overlooked. Also consider that at least two dump truck loads of remains were trucked out of the site before it was discovered that at least one of them contained human bones. The family reported that other families sometimes brought relatives there for burial. I talked with one of the older Weiers and was told that their grand parents told them of a man who carried his dead baby for several miles to have it buried there as it was the only cemetery he knew about. Around this landmark early settlers from several families buried their dead. They probably did not know or care if it was an Indian mound or not. Whether or not it was will probably remain unknown as the evidence was destroyed and removed. Early farmers often raided Indian mounds to get pots. There was once a road that led from Martin road directly to this cemetery. I have it on an aerial foto and showing the mound in the 1960s. I shall call it the Bunert-Indian Cemetery for shortness but it was supposedly registered on the State of Michigan registry as the Bidell-Green-Weier Cemetery. I saw a 8 mm movie in about 1970 showing three burial vaults in which bones were being piled to be buried at Clinton Grove. It is now located on the southern half of the Briarwood school property. I spoke with the undertaker who performed the last removals. I found newspaper articles. And weirdly also found reports of ghost sightings believe it or not. By the 1960s it was overgrown with Lilac shrubs that waved in the breeze. The Lilacs were planted by other families to mark the burial places but had become overgrown over the years. The family was forced by economic reasons to sell the property. The school district would have taken the property anyway as they wanted to build a school there. It was transferred about 1966. Mrs. Ida Weier told the school district that it was a burial ground and wanted all remains to be treated in a Christian manner. Bunert family burials were removed and reinterred at the Clinton Grove Cemetery in Mt Clemens. There were no other stone markers and all of the wood markers had rotted away and the little stone pebble markers were displaced so it was not particularly recognizable as a burial ground. But she also warned the principal that it was a burial ground. He called her a crazy lady. During construction a skull and other human bones were discovered. (Per Tri City Progress 4 14-1967) In May of 1969 children playing in the school playground discovered more human remains. Imagine the look of shock on the teachers face when they brought the remains into the classroom. Later the principal went over to Ida Weiers house and wanted to question her about the remains. She reminded him that he had branded her a crazy lady for even suggesting that it was a burial ground. One contractor dug a load of dirt for fill

dirt and dropped it off on someone's property. The homeowner receiving the fill dirt found skulls and human bones and called the police who contacted the contractor. Imagine asking for fill dirt and getting human remains dropped off in your driveway. Wow was he in trouble. It wasn't very long when that kids were also showing off human remains from the mound. That finally got the officials attention. The school district wanted everything hushed up so no archeologists were called in and in fact it was them who hired a funeral director. The school certainly did not anyone to discover that this was anything other than a single family burial plot. But human remains of at least 40 humans were removed from what was left of the mound and the rest of the area was not explored. Historian Wesley Arnold states that he saw movies of this mound being excavated. William DuRoss the funeral director mentioned that Theuts, Greens, Hessels, and Schoenhers were probably buried there. So it was for sure a pioneer cemetery. Whether or not it was also the remains of an Indian burial ground had not been determined by scientific investigation and will never be never known as the evidence has been removed and scattered. And even though a few bones were removed the balance of the remains of those pioneer families remain underground. This historian does not believe in ghosts but must report many of sightings over the years by homeowners adjacent to the Briarwood School property. Several families and even children have reported sightings and strange happenings there. As a historian I am honor bound to tell the truth. Strange. This historian feels that a plaque should be erected at least on the on a bench on the grass next to the paved path that goes around the ball field that would and mark this as at least a pioneer cemetery.

Warren Union Cemetery

The Warren Union Cemetery is located between the Red Run River and Chicago Road East of Ryan Road. Pioneer farmer Peter Gillette sold a parcel of land in 1845 to eighteen families for a burial ground. It is the second oldest cemetery in the city of Warren. It most likely has 1000-2600 burials. The Warren Union Cemetery historical plaque states it has 325 graves that date from the 19th Century. This is wrong and was not based on research rather by just counting old stones. (This did not count those not marked with a stone) Note more recent studies indicate at least over 500 graves date from 19 Century plus nearly 500 buried or sprinkled after 1900 that have a stone or stone fragment. If one counts unmarked graves there could be 2,600-3000. However no one alive knows as records were not backed up and were lost. The old Historical Societies failed to make even one copy of the records and location chart which was thrown in the trash when the sexton died.

The St Clement Cemetery is located on Engleman West of Van Dyke. It is the biggest of our area's pioneer cemeteries the first known recorded burial was March 27, 1854. It is possible that there were a few before that date. Over 800 burials date from the nineteenth century and over 1,500 burials prior to 1943. See historian Wesley Arnold's 19 books about these 3 cemeteries which have pictures and indexes of all of the old grave stones in both Warren's Union Cemetery and St Clement's Cemetery. These two cemeteries hold most of the remains of the early pioneers of Warren. There were also years of failed record keeping and priests who didn't want to bother about records. One who actually got rid of the Mac computer which had many records not recorded on paper.

There were also local farm burials prior to 1850 but records of these are lost. One house on what was the old River Road has a stone marker. Yes stillborns, 1 day babies, and sick livestock were all buried on the farm prior to 1860. Visit my Historical web site at dogoodforall.today lots of pictures. Also

The man above has transformed the poor weed filled Warren Union Cemetery to a place of beauty. He has transplanted most of the trees and shrubs there and countless flower beds. We owe this wonderful man a great debt of gratitude. The above stone was to be placed there but because of the stealing of as of now up to eight memorials we are afraid of placing it there. It is no longer safe to place memorials at Warren Union Cemetery. But Tom Turmel and his fine work will beautify this jewel of Warren for many years to come.

You have seen his fine work at Haney's and other places around Warren. We salute Tom Turmel

Two people stole our soldiers legacy secretly without just cause, without vote of Village Commission Historical Society or a public hearing, They do not own the markers, or the cemetery. They robbed Warren's unknown soldier memorial from a grave site where the Detroit Memorial Society indicated a

soldier was buried in a precise survey, and they stole a memorial that listed Warren soldiers who are buried in Warren Union Cemetery and may be and a few other Warren Soldiers who served some of which died in service and have no marker elsewhere. And it listed one Vietnam area soldier who will be sprinkled here. One memorial was **the only memorial showing the names of these soldiers.** **Nothing was found wrong with these memorials in a later public meeting** And they stole yet another big stone, the memorial to all veterans and to those who died on attacks on our country (Pearl Harbor affected many families) and 9-11 (including over 400 policemen and firemen among the 3000 killed) This memorial was to remind our young people who are no longer taught history in school that we also honor our those who were killed in attacks on our country and they should be vigilant and prepared. The grave robbers also stole a stone that told what our flag stood for to those who fought and died for it. The two grave robbers also robbed another bigger stone honored those many children and pioneers buried there without markers. Many of those children died terrible deaths from childhood illnesses. **These memorials were causing no harm. There is lots of room for them. They posed no threat. There is nothing disrespectful or wrong about these memorials.** The memorials were there to honor men who died and to educate visitors especially young people who no longer learn about history in school. We veterans saw friends die. We served our country with honor and integrity. We feel it is wrong to steal memorials showing soldiers honored service to future generations. They at least earned their name on a granite stone. Now visitors including young people will not be able to see who these soldiers were. **Now many of our soldiers have no marker at all because the only one they had with their name on it was stolen.** This was not done by the historical society but by two persons, without a vote of the membership. Taking property that is not yours is called stealing and when it is worth several thousand dollars it is grand larceny. **Stealing memorials that name our soldiers is worse than disgraceful. They are robbing our history left for our young people who no longer are taught history in school. No one should be allowed to steal memorials they don't own out of a cemetery they don't own. We veterans feel that they have disrespected our soldiers, our flag and those who died on attacks to our country.** These memorials were donated without cost to the city possibility by out of town descendents of those buried there.

We veterans are asking that The Warren Village Commission simply acknowledge that these memorials are not a threat to anyone, harm no one, honor our Warren Soldiers many of which are buried in Warren Union Cemetery which has lots of room for them and does so without cost to the city. We also ask that the people who removed them without public notice or the vote of The Village Commission simply return them without cost to the city. This will also avoid costly and ugly legal battles supported by hundreds of veterans over the improper removal (grand larceny) and disrespecting of our soldiers. This simple and cost free action would make The Warren Village Commission heroes to thousands of Warren children, and veterans who look to them to preserve our Warren Village Historical and American Heritage to future generations.

This also fulfills the missions of The Warren Historical Commission, the society and Village Commission to preserve our history and educate future generations. But if they choose to disrespect our soldiers and veterans and those who died defending our freedom and on attacks on our country let it be known that we (and there are hundreds of us) will mount a campaign against those few disrespectors. We veterans are not going to allow men and women who died to be disrespected and their history stolen from our local cemetery. Attention attorneys we are looking for attorneys who are willing to help us fight this cause. We are willing to do fund raising to pay you. We are looking for banks or organizations who are willing to accept donations directly to them for this cause. None of us is to accept funds rather they are to go directly to the bank.

Just a small additional note for the record about how some of those memorials got there. I know about two of them because I was the inspirer for them. While doing research I spent many hours there. During that time visitors would come and go and some noticed me and came over to a me an old man with a notebook. I usually offered my assistance in locating their dead relatives because at one time I could name the location of every person named on every stone. They could ask me where the Fasel

family was and I could even tell them that, even though there was no marker left. There were four occasions which still stand out in my fading memory. A woman who did not tell me her family name or who she was visiting (its not my business so I merely offer to help locate if they want the help and I give almost everyone my card with my big history website on it.) We did talk about soldiers buried there and of course me being a Veteran also mentioned that there are several buried here who have no name marker, and perhaps a few of now unknowns, and some Warren Boys where were killed in France and weren't even memorialized enough to have there name on a grave stone in Warren. Well she was upset about this. Another woman on a different day asked about the children buried here. I had the sad duty of showing her a few stones and telling her that according to my studies and of other researchers there are many children buried in these old cemeteries who have no marker at all and are forgotten. I mentioned the crying report psychic claiming to hear children crying. I gave her my website card which has historical research on it. This woman appeared a little upset about this information. But I stated we just don't know and it is true most of the children and pioneers buried here have no marker. I do not ask women visitors addresses or phone numbers for obvious reasons. I give them my card and if I can help their kids get scholarships they have my website. (That is another thing I do as a college professor I help people get scholarships.) The Children and Pioneer memorial was probably donated by this woman and she quoted me on it as a source but they left off the quotes. I personally for the record feel that my name detracts from the purpose of the memorial which is to honor the Children and Our Pioneers who are buried here without a marker and for a large part are forgotten. If this memorial is recovered I will personally cement over my name with a matching color mortar.

The other two remembrances I have is visit of the **psychics with instruments** 3 people who came in one afternoon. I asked them if I could help them locate their loved one. They replied no they did not need my help that they were here just to communicate with people. I looked around and I was the only one in the cemetery. (I thought ..hmmm ahh .OK...) So I asked if I could quietly come along. They turned on their instruments and soon took to all walking in the same direction without communicating between each other. They stopped at Lewis Busch. Lady #1 said “Yep” Lady #2 said “Yep” Man #1 said “Yep” Lady one asked out loud is this Amanda? Lady 2 said “gone” Man 1 said “gone”. Lady 1 said That was the 2nd wife I offended her. And she left. All this happened before they actually read the names off the stones. They went around seemed to have trouble getting responses. I asked them if they could find the Fasel family for me. They stated “ We will try.” (Note That family name does not appear near the location. After a few minutes of them asking out loud for directions to the Fasel graves we found ourselves standing on the spot next to Qualmann. I asked them how you found that? They said well Joachim showed us. I later discovered that there was a Joachim Fasel and his grave was next to the Qualmann plots. I then asked them to find out if they could whether Edward Thimian died from a gun shot or illness. I took them over to the Thimian site. And they right away told me his mother was here but has no stone. They took a few minutes to seemingly ask about Edward Thimian and told me he died of illness not a gunshot. I found out later that they were correct. The 4th remembrance is the black thing. I will not talk about it. Where was it when the grave robbers were here?

Lastly Yes I have placed several bricks on grave sites where the stone is unreadable or where I have identified the person buried. This appeared to me to be a useful project which benefited visitors and history and cost the city nothing. However this project was brought to a screeching halt when the grave robbers started stealing the marker bricks and when the hysterical society insisted on 42 inch footings under each new marker. They don't seem to understand that this is not a commercial cemetery on new land but rather a pioneer cemetery used for over 160 years where graves were dug by hand and were often less than 42 inches to the corpse. Remember the corpse stayed in the home until buried which was usually the next day regardless of the weather. And consider that in the old days there was no undertaker. Consider a family digging a grave by hand in frozen temps or driving rain. They did not have pumps to pump out a grave. New born babies and still-borns were often not put in six foot deep graves. Sometimes they were just buried on top of their parents or grandparents which would put

the body even closer to the surface. I have indexed six cemeteries. In one a sexton told me that they had to be careful even when placing flat 4 inch thick markers because sometimes bones were not too much deeper than that. So the hysterical society has managed to kill this historians projects.

I cannot take credit for any of the fancy granite memorials which were stolen. It is almost amusing that the hysterical group spread a rumor that I placed five of the fancy polished granite stones there for my own self advertising. Come on folks First I am retired and on social security and don't have that kind of money and second why would anyone spend perhaps \$5,000 dollars to place fancy polished granite stones out there which perhaps only a dozen people a year would even see. And Yes I was quoted on two stones but not all of them. (I am the Vietnam veteran who will be sprinkled there so was listed for that reason and I was quoted as a source on the other one. Explanation given above.) Yes I have placed a dozen or so marker bricks out there to mark unreadable stones but my name does not appear on any of them even though I made them myself out of fine cement. Oh and what am I advertising? I give all of my books and DVDs away for free. The only reason I would accept for placing my name on a stone is if it marks my sprinkled ashes or being quoted but not if it detracts from the purpose of the memorial. My personal grave stone is at Forest Lawn in our family plot ,although I plan to be sprinkled here where I have lived all of my life, not in Detroit where if my grand children may visit they may get mugged or killed.

There are hundreds of unmarked burials in this cemetery. At first suggestion of this it seems false but researchers who have studied this cemetery and others in older Michigan cemeteries have found that there are often many more persons buried than there are stones.

Warren Union Cemetery may have hundreds of more burials than stones now show. Consider that the original 19 families who had lots 10 feet by 30 **did not place stones. (that is 180-400 burials of which now only about 50 now have stones) And most had big families and they usually filled up their lots** and had to buy additional lots here and elsewhere (We have proof of that from what Dorothy Cummings says about her family and records of other cemeteries verify this) and to accommodate the deaths from many diseases we now have cures for. Also consider that many stillborns and newborns were **buried on top of regular already used lots and were rarely marked.** Even now many families have baby graves without markers. Consider that **the older graves were most often not marked by stones at all** and that **the older part of the cemetery was considered full by 1945** and many families had to buy lots elsewhere. Consider that **there are 1000-3000 grave spaces** even after subtracting aisles and drives. Consider that the “back” of the cemetery where many babies & paupers were buried extended much further than the now fenced in area and was destroyed by the 1950s Red Run project and by erosion since. The fence was erected in 1986. Families who suffered stillborn or baby deaths did not usually want a big funeral or a stone as there was a stigma about this. The family home served as the funeral home and most families just buried the remains in the cemetery quickly and privately and did not want a marker to remind them of a stillborn or sickly often unnamed baby which would prolong the sorrow of the guilt ridden grief stricken mother. **The sister cemetery St Clement with good records shows 1.5-2 children buried for each adult with only about 6% of child deaths registered at the county.**

Also the infant mortality rate back then was very high approximately 200 per 1000 per annum. Many other old cemeteries have hundreds of now unmarked graves many of which are children. Figure of the 1000 burials in Warren Union Cemetery only 150 show children. County death records which show only about 6% of child deaths of Warren show there are 500 child deaths per 1000 adult deaths average but that may only be a quarter or less oa actual child burials. Consider that only about **6% were even registered** and considering the actual rate per the sister cemetery which is 1.5 – 2 child burials per adult and also considering the mortality rate there are hundreds of additional unmarked burials. **Researchers have done the math of all of the above and say that there is high probability that hundreds of children and many adults are buried in Warren Union Cemetery without markers.**

We should at least acknowledge that the possibility exists that there are hundreds of additional

unmarked graves at Warren Union Cemetery.

There may have been additional burials since the last official one in the 2016. Because of the repressive nature of the Warren Historical Society which has declared now necessary for deep foundations to monuments which do cut into old burials more than one families have mentioned to me that they will have their relative sprinkled there or will bury the cremains secretly. I was a caretaker there for St Paul's for several years. Some of our families still have unused lots there. Our congregation has grown very old and the church has transferred the cemetery over to the city.

Below is an alphabetical list of known burials. There are hundreds of more burials which now are unmarked. Most of them are children. And most of the children are infant burials which were never marked at all. In most cases there is not even a registration of the birth or death. Many adult pioneers are buried here and now have no marker because the small original marker stones or cross is now gone. Many families did not have money to buy an engraved stone and there were no stone engravers in the area.

Many of the children buried here died terrible deaths from severe bowel inflammation, cramps, whooping cough, scarlet fever, and other terrible diseases we now have a cure for.

These stones above are the remaining stones of a 166 years of neglect, weathering and vandalism. Also note that until 1986 this cemetery had no fence at all. Just in 2011 nine stones were stolen out of this cemetery that we know of. I received a call from the mayors office as caretaker for this cemetery that a person saw two stones in a neighbors garage they think were stolen from our cemetery. In talking with the witness he did not to leave his name or address fearing repercussions. But he did state that teenagers were involved and he thinks it was done as a joke. I note that no stones have been returned to our cemetery.

Note on Soldiers and Veterans it is very probable that there are additional soldiers/veterans buried in this cemetery. Many widows did not have funds to buy a marker for their soldier husband. Some veterans died in poverty as some do even today.

Warren Union Cemetery Warren Michigan by location

First is a list of persons buried in Warren Union Cemetery at unknown location
 Note death records only give name of cemetery but not location in cemetery.

Fred Austin Reddick b Troy township Oakland Co. Feb 4, 1875 d oct 27, 1937 son of Frank Austin Reddick of Belleville One & fannie janette Wilson, Troy. Husband of Mazie Reddick. Inspector Ford motor Co. informant Lloyd F Reddick. Died in Warren Michigan.

William Henry Smith b Vermont, d Dec 25, 1898 aged 41 son of A Smith and Sarah J Sentus of Vermont. Married- physician. Gunshot wound to head. Dr Geo G Robinson-Undertaker, P Dusenbury, Utica.

Transit permit from Detroit #393 to bring for burial at Warren, Mi Thos R ? Hutton aged 39, who d at Detroit, jan 16, 1891 of Heart failure. Undertaker, Blake-medical attendant, Hal. C Myman, MD(order dated Jan 17, 1891.

Husband of Jennie Crabtree. Was a butcher in general store. Informant Edw Mills, 5731 Chicago Rd Warren.

William Ramus b Wayne Co Mi May 25, 1869 d Jul 26, 1940 son of ? Worked at Warren brick yard. Informant son Fred Ramus.

And many pioneers and hundreds of stillborns, hour old babies, day old babies infants and children who died terrible deaths from the many childhood diseases which we not have cures for such as Whooping Cough, Scarlet Fever, Diphtheria, Typhoid Fever, Inflammation of Bowels, Summer Complaint often with severe pain.

Note many stones are difficult to read so families should check the original stone.

This list also includes recordings made in 1938, 1940, 1997 and Wesley Arnold's 2004 and 2010 studies. This is a list of stones and the people buried nearby. It is quite likely that 10% of the people buried here are not identified by a visible stone. Both the stones and the bones below are slowly returning to dust. Stones are listed by Lot Rows starting as S W corner and proceeding East. Lot rows run South to north. (Wes Arnold a professional photographer took pictures of most older stones. Wes donates all of this free. It is on the website macombhistory.us The* symbol means that it was listed on a walk thru prior to 2004. In some cases the stone no longer exists but I have listed the person buried nearby.

Example of numbering: R2-9ur translates to Row 2 nine yards North ur = unreadable

Hs = head stone fs = foot stone cs = corner stone us = unknown kind of stone partly buried

Stones are numbered in order from South to North as of June 2010. Names are listed on the stone.

More means there are more difficult to read words. If there is no number in front of name stone is gone.

People buried there are listed if known.

Note many epitaphs are so worn that they cannot be read.

This older part of this cemetery was pretty much filled up before WWI In fact the cemetery had to be expanded several times by land acquisition. Families often had to buy plots elsewhere. In the old days it was a great inconvenience to have the cemetery far from the residence as the residence was also the funeral home. In addition to the graves being filled with adults and older children there were additional burials of still-borns and day old babies on top of burials and in the back of the cemetery. Even today virtually all of these are unmarked by any stone. People just don't want to be reminded still-borns and day old babies, many who never were even given a name, even today.

Paupers were also buried in this cemetery in unmarked graves.

18-18 Stevens Ormal D Dec 10, 1898 killed in France July 19, 1918 WWI veteran

American Legion Marker* The following found on a note: "The son Ormal Stevens killed in WWI was a constant tragedy to his parents. John slowly died of TB during my days in Warren. He was a fine looking lad and delightful companion. His folks built a little house in the yard of their home for him and tried to do all they could but he would not strictly follow the doctors orders. Bernice Stevens was my school teacher in the lower grades at Utica. She married Neil Kennedy who was for long years station agent for the M RR at Warren, then was transferred to Wayne Michigan. They built a house on the west side of the street running N & W starting just east of the city hall. Had several children. A fine woman, tall & handsome. Nele was short and slight. Other daughters Helen and also a son Nook. The Stevens home for long years was on east side of Chicago road about a block from the sharp bend coming from the RR track crossing ease. Mrs Ormal Stevens Sr was a Rickabus. Ormel Stevens Sr was drawing some furniture from --- RR depot to the village with his horse drawn dray and --- helping him was another local man all of whom with son were very profitably employed. During the work a man made a slighting remark about Stevens son when Stevens climbed back over the load and enraged he engaged in a struggle which ended when they both fell off the wagon. Ormal never ceased to call them a family of slackers."

unmarked graves

Totals: probable persons **based only on surviving stones** 10; total graves 66; total unmarked graves 56

Total possible graves 1000-3000 those marked around 1000 changes monthly being stolen broken, weathering. There is a clique within the Warren Historical Society who think it is OK to remove stones families have placed there. I was informed that they not only stole the Unknown Soldiers's memorial and the only marker naming our soldiers buried there but also someone's epitaph. Even many of my

little brick markers marking graves whose marker is gone or unreadable are gone. When will this stop?
