Above: World War II Honored Veterans. This sign was posted in Warren for years.

Our local Soldiers

KINGSCOTT, JOHN W is buried in Warren Union Cemetery. He was an early Warren township official and was listed in the official 1850 US Census as a US soldier. In those days the life of a US soldier was often one of suffering and sacrifice. That is why he should be listed on a historical stone. Otherwise he will be forgotten.

Much of the following research was done and Transcribed by **Robert and Cheryl Allen**. They have done a lot of other historical work and we owe them a dept of gratitude. Thank You

Civil War Soldiers/Veterans that were from Warren but we don't know whether their remains are buried here. A search of many other cemeteries did not prove they were buried anywhere else. Since this was the closest cemetery to where they lived, and since in the old days people were usually buried in the closest cemetery it is most probable that they are here. They were poor farmers whose widow may not have had money for a memorial and there were no stone cutters in this rural area.

It appears that this Silas may be buried in Warren Union Cemetery and a another one is buried elsewhere. Has family is buried in Warren Union Cemetery including his wife so it is highly probable that he is.

Van Fleet Theodore F. Born June 23, 1842 (Pruss). Enlisted in company A, 22d MI Infantry Aug 11, 1862 at Pontiac for 3 years at age 20. Mustered Aug 14, 1862. Taken prisoner at Chickamauga, Georgia Sept 20, 1863. Died while a prisoner of war Sept 18, 1864. Pension request filed by father 9/17/1879. D 1864 The headstone is located in Warren Union Cemetery. We don't know if his bones are.

Unknown Soldier Back in 1940 The Detroit Society for Genealogical Research did a detailed walk thru of Warren Union Cemetery. They noted that a flag indicating a soldiers grave was located in strip 20 and in the fifth plot. This is now located to the North of the Davy plot and to the West of the Heartsig plot of strip 21.

As a historian I have also been told that there was an unknown soldier at Warren Union Cemetery but no one has told or shown me where. The soldier buried there was not an unknown soldier at the time of burial. He certainly is now because no one alive knows who he was because the records were lost in a flood of the church basement. We veterans think he should still be honored. Whether we know his name or not. We feel it was certainly wrong for a 8 member social clique Warren "Hysterical" society to rip the stone off of a grave without just cause to sell it or now that they have been caught "dispose" of it.

The same goes for the other 5-7 stones they did not own and they have stolen out of our cemetery. It was not their property and they do not even own the cemetery.

We veterans know what it is to fight in a war and lose friends. How dare these disrespectful vigilantes steal a memorial that was not their property out of a cemetery. Were they so jealous to take credit for memorials, that they stole ones that others had donated? We veterans have served our country and have lost friends in wars and we feel they have disrespected our soldiers. They are now a laughing stock and have given Warren a black eye. Shame on the two officers husbands of the Warren "Hysterical" grave robbing society who are responsible for these shameful actions.

See Volumes 4 and 5 of Wesley Arnold's Warren Mi History about wars and our Heroes and Vol 13 about Our Veterans. These volumes list most of our recent soldiers and veterans thru Vietnam era and some from later. There are also many pictures of them included.

Death records some of which are buried in Warren Union Cemetery. Note the county is missing many records from 1818-1900 even though their record book starts in 1867. Many deaths particularly children were not ever registered. We can assume that most of the dead during this time were buried on the farm or at the closest cemetery. Warren Union Cemetery was not started until 1845. But some remains were brought from the farms to the cemetery such as Moses Wilson and others. Most of these have no current marker. The reason for this was: most families were too poor, to buy an engraved stone, they believed in a resurrection so a stone was not needed, there were no stone cutters close by, there were no funeral homes so the corpse remained in the family home until burial, There were sometimes foul leaks and worse odors from the corpse (even after just a few hours), The family often feared that the cause of the death would spread to them, so for those reasons the body was often buried the same or next day and at the closest location because there were no hearses, no time

make arrangements at some non local cemetery, there were no good roads or time to transport the body often only tied in a blanket. There was often no coffin makers or properly cut lumber to use. Gradually by the 1920s the above rather primitive simple corpse handling gave way to our more modern practices involving using caskets, funeral homes, mechanical machinery to dig graves rather than by hand shovel which could take all day. Even in good weather but nearly impossible in winter and in heavy rain or when family members were sick themselves.

So Who is buried at Warren Union Cemetery?

The answer is many more persons than are on the surviving grave stones. A Warren Township study is underway by Wesley Arnold from Macomb County death records and Warren censuses 1830-1880 and a few 1900 gives some preliminary results. Family records will give us more data also.

First are the first few families who bought the first lots and lived nearby. The following families named here have a high probability of having members buried in Warren Union Cemetery. Most of these folks, at that early time, did not place engraved markers. The reasoning was because: 1. They did not have the money and no one to pay to, 2. There were no local stone cutters. 3. It was not traditional at this particular time. 4. There were few local cemeteries with few markers if any. 5. Many believed in a resurrection soon and felt there was no need. 6. They knew who was buried where. 7. At that time they were often in survival mode and had higher priorities such as surviving illness, tending crops, harvesting etc.

Warren Union Cemetery was formed when Peter Gillett sold a piece of ground for a burial ground to the following people reserving for himself a lot. The number shows the row and number or positions of surviving stones marking members of that family. Further down I have listed number of unmarked graves in that row. But the number means full size grave. Please understand that there are probably hundreds of stillborns, infants and children buried in small spaces, and at ends of or on top of other burials and at back of cemetery. Even today stillborns are often buried at back of cemeteries and no marker placed. There always was a stigma about stillborns. More so in the past. Are they people? If the answer is yes why are they uncounted and undocumented? Almost every family has stillborns, infants and children who died young. Most are without markers. Most were unregistered before WWII. Number of graves in this cemetery depends on several factors as follows: Size of the cemetery, actual burial range, not just limited to where fence is now, grave width range, whether this was standardized or up to individual families, number of layers, whether a baby burial was in a full grave, on top of an adult burial, in a tiny grave, or at end of an adult burial, or whether cremated and buried or sprinkled. Number of actual burials vs number of grave spaces.

Studies show 1.5-2 child deaths per adult death at least through WWII. This leads that there is a possibility of up to 1850 additional child burials because there are at least 1000 known adult burials and 150 child burials. And the Infant mortality rate hovered around 200 per annum per year also. Again very few child burials were recorded and records were not kept.

Here are stats for the first 20 families in old section.

Murry D member of trustees of church
and assuming one more family joined these 19 families that would give 20 families at
10-20 burials each that would be 200-400 possible burials of which there are now only
55 total listed on surviving stones.
