Explanation: Yes, but can your rainbow do this? After the remnants of Hurricane Florence passed over the Jersey Shore, New Jersey, USA in 2018, the Sun came out in one direction but something quite unusual appeared in the opposite direction: a hall of rainbows. Over the course of a next half hour, to the delight of the photographer and... See more

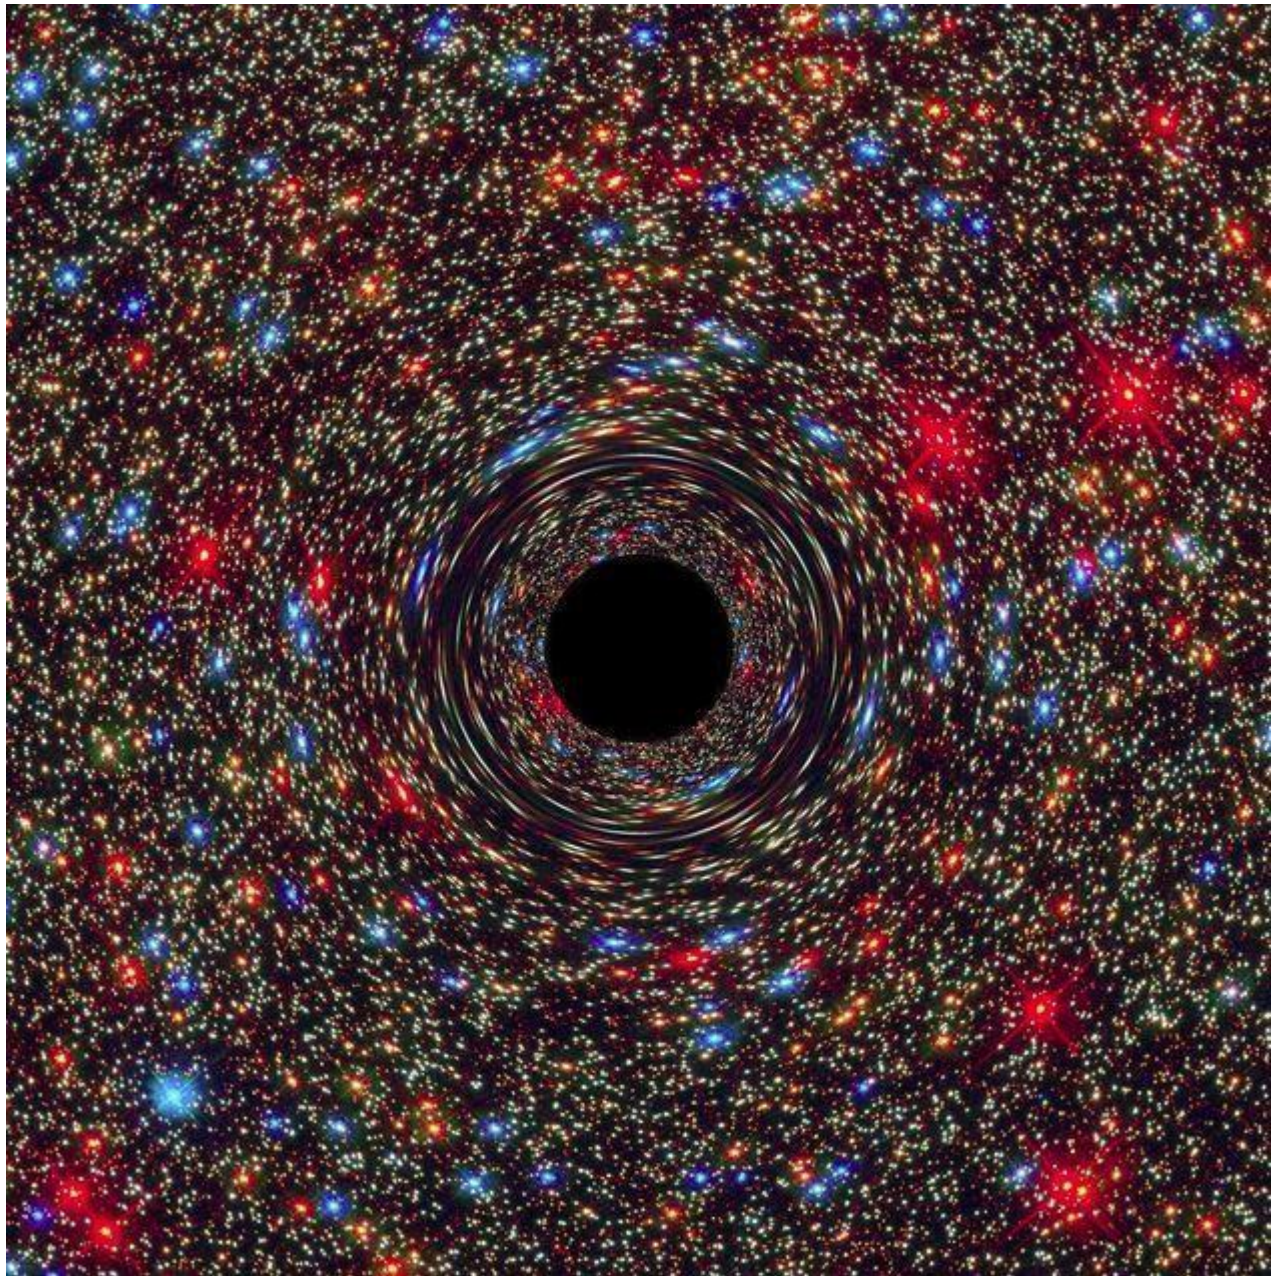

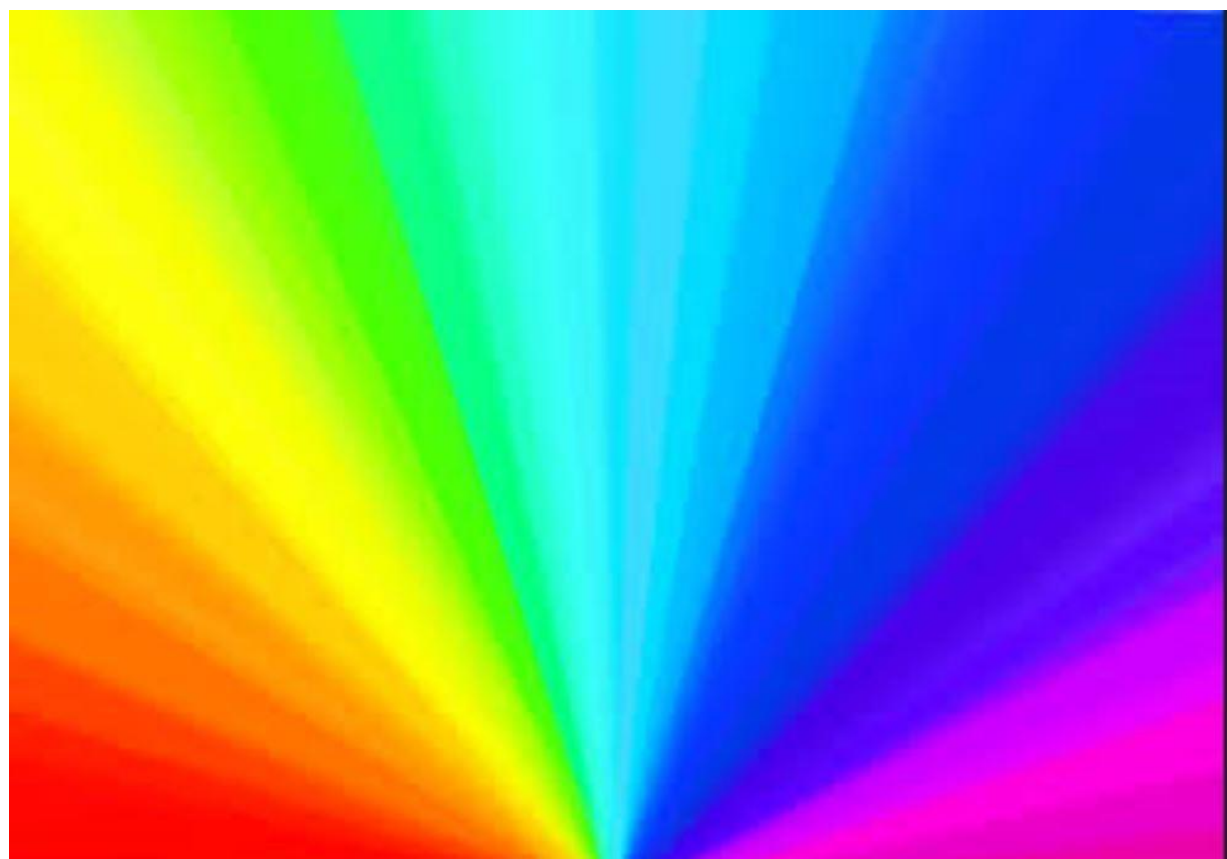

A beautiful moment at Mount Rundle in Banff National Park, Canada 😊❤️

The sun was rising so the orange glow blended with those unbelievable rainbow clouds. Polar stratospheric clouds are rare and only form in the Arctic polar region.

**Photographer Greg Harlow captured an amazing phenomenon at Yosemite National Park.**

We now have the resources and knowledge to create Abundance, Freedom, Good Paying Jobs, good housing, & medicare for All. Let's end poverty now. Demand these from Congress. **Put the wealth to work creating jobs which puts money into circulation.**

Deceptive rainbow by Corporations such as Banks, Big Pharma and Big Oil who are making excessive profits and millions of dollars in salaries for officers on the while charging excessive interest and prices causing deaths, poverty and suffering. Many of these corps pay little to no taxes. Worse many get taxpayer subsidies or tax exemptions because they are paying off legislators. Yes check it your yourself. Many Seniors and Poor being asked to pay hundreds of dollars for pills which cost the drug Corporation pennies.

Even common Insulin prices many times the actual cost.

Result people dying including children.

Gas Corporations making Billions even during shortage times but continuing to rip off consumers causing hardships and families to choose between buying food or gasoline to go go to work.

Meanwhile corporate officers giving themselves raises to their already millions of dollar salaries. Call your congressmen and demand they take action to fix this.

Over 3000 died needlessly and 174 since here in the USA including children in Islamic bombings. And thousands have been killed around the world. Why? The Quran orders them to kill non believers (that means you and me) in verse 9-5 and many other verses. They are part of a world domination cult and lying is one of their deceptive methods. This cult has taken over much of the Middle East and Africa through killing, selling people as slaves and stealing their property. Women and girls are abused and are not free or to dress as they please even here in USA. "Honor Killings" are done to women who disobey even here. Child brides and sex with girls as young as 9 is part of their law because their cult leader practiced it. They gradually move into places of power and once they get power they smash out all religions and subjugate non believers. They are bringing in thousands of immigrants now to build their power to take over the USA. Beware they are in stealth mode building power here for a take over with their people in high places. To see what happens when they get power look at Iran and Afghanistan now and other countries they have taken over usually by force. Yes this is now a current rainbow of deception.
